

# LAMOX

Registration No: BE-REG-00198

## GREEN DEPOSIT REMOVER

READY TO USE

1000ml<sup>e</sup>

N°1

- ✓ For all surfaces;
- ✓ Fast-acting, results within 24 hours

- Quickly removes green deposits on garden furniture, planters, gravestones, walls, windows, roofs, driveways, conservatory windows, etc.
- Use diluted, no scrubbing necessary, let it work.
- Does not attack latex paint, lacquer, aluminum, zinc, metal, glass and plastic.

### INSTRUCTIONS

For optimal results, treat in weather **from 12 °C** and a **dry period of 1 to 2 days** after application. Spray, pour, brush or scrub Lamox with a solution of 10% (1l to 10l water). **DO NOT RINSE** . The solution is applied with a backpack sprayer, brush or watering can. You let the product work in and after a few days all the green deposits are removed! The development of green deposits is prevented for many months.

By using this moss remover, you no longer have to scrub away the green deposits yourself. You achieve optimal results with minimal effort. With 1 liters of Lamox you can treat an area of 10-20m<sup>2</sup> with a backpack sprayer.

ATTENTION ! Do not spray on plants! The agent becomes ineffective when it comes into contact with soap or synthetic detergents . Transport and store the bottle upright.

EN This is a harmless preparation. Normally no risks are to be expected, minor discomfort may occur. Keep out of reach of children. If medical advice is needed, have product container or label at hand. Composition according to the E.C. guide lines: Cationic surfactants < 5%. NL Dit is een ongevaarlijk preparaat.
